THE MIRROR

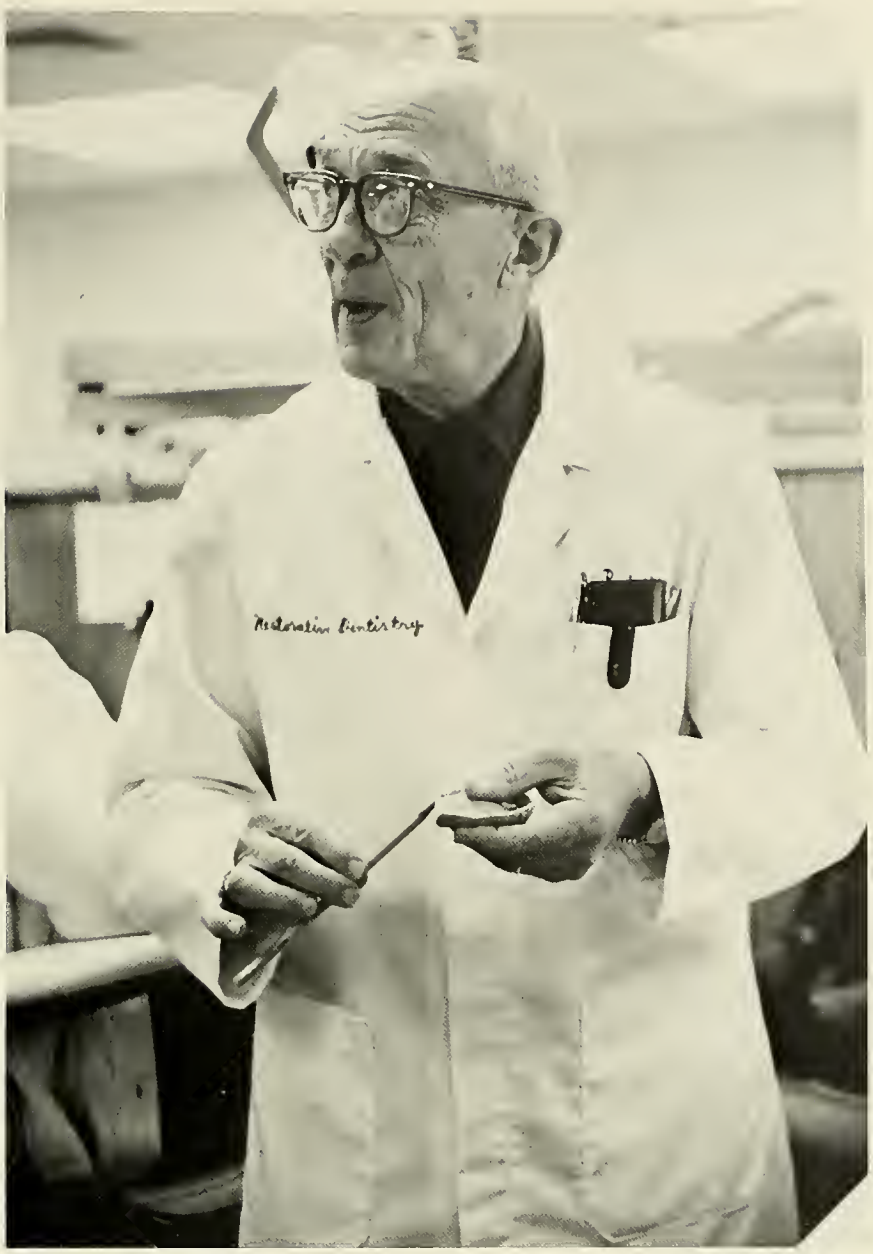
Published by
the Student Dental Association of
The University of Maryland School of Dentistry
Baltimore College of Dental Surgery
Baltimore, Maryland
Roy L. Eskow, Editor

History of "The Mirror"

"The Mirror" was initiated at the Baltimore College of Dental Surgery in the year 1901, under the editorship of Thomas J. Corbett. From that time, "The Mirror" was published yearly until 1922, when the Baltimore College of Dental Surgery amalgamated with the University of Maryland School of Dentistry. Between 1922 and 1932, the annual was replaced by the yearbook of the University, "The Terra Mariae." In 1933, by a vote of the Board of Editors and with approval of the staff advisor, Dr. Harry B. McCarthy, "The Mirror" was revived and has continued, as such, to the present.



HONORARY SENIOR CLASS PRESIDENT

DR. MAURICE S. "BUCK" RODGERS

On September 21, 1972, the Class of '73 unanimously elected Dr. Maurice "Buck" Rodgers as our Honorary Class President. The reasons for our happy selection are best described in the words of an anonymous dental student. He defined a leader as, "A man who . . . invites others to come along, instead of going for them or sending them on ahead . . . actively participates, instead of passively observing . . . defends his colleagues on all levels, instead of undermining them . . . shows by example, instead of describing in words . . . gives welcome advice, instead of unexpected criticism . . . has experienced defeat and is willing to admit it . . . initiates involvement, instead of cursing a standstill. Most of all, he is a warm human being, full of encouragement, devotion, and patience." Yes, these are the qualities that describe a leader, and it is that leader who we congratulate and thank today!

MARVIN MANDEL
GOVERNOR

MESSAGE FROM GOVERNOR MARVIN MANDEL

I welcome the opportunity to extend greetings and congratulations to the graduates of the University of Maryland School of Dentistry.

Each of you is to be commended for having successfully completed the long and ardous task that enabled you to win your degree, and I want you to know that I share a deep sense of pride in your achievements.

Whether you choose to continue your academic studies or to pursue your career in dentistry, I am sure you will find the knowledge and experience you have gained at the University of priceless value in years to come.

Please accept my best wishes for your success and happiness in the future.

Sincerely,

Governor

"Within these stones and bricks, healing is to be administered, and no less important, human relationships developed between teachers and students and between students and patients. If ever patients are regarded as clinical material, this building will have been degraded and its use corrupted. We must never forget that the word patient comes from the Latin root which means to suffer. Clinical material does not suffer. Human beings do."

DR. LOUIS H. KAPLAN
CHAIRMAN OF THE BOARD OF REGENTS

ORGANIZATIONS

STUDENT DENTAL ASSOCIATION

Robert J. Bray, President

The Student Dental Association, striving for greater student participation, has grown from a group of about ten people to an organization which now includes more than sixty members. Voting members include representatives of each of the seven classes, the social fraternities, and student organizations, such as Gorgas, Gamma Pi Delta, the *Probe*, and the *Mirror*. This year, for the first time, representatives from the graduate programs are included.

The S.D.A. is not only involved with governing the student body, but also sponsors such organizations as the American Student Dental Association, the American Association of Dental Schools, and the Student National Dental Association. In addition, the S.D.A. is involved with the appointment of students to various faculty council committees.

With the increased membership creating a large pool ot talent, the S.D.A. has been able to attain many of its goals, including a student handbook and student directory. Intramural athletic programs are now well underway, as are numerous community projects. Finally, in an attempt to enhance student-administration communications, luncheon meetings between the Dean and S.D.A. members have been held.

DENTAL WIVES

THE AISENBERG RESEARCH SOCIETY

The Aisenberg Research Society was founded in 1967 by dental students interested in sharing research ideas with prominent dental researchers and each other. The Society was named after the eminent investigator and former Dean of the University of Maryland School of Dentistry, Dr. Myron S. Aisenberg. With scholarship and research experience as the main criteria for membership, the Society invites to membership all students of all classes who have participated in fellowships either at the School of Dentistry or some other research institution.

OMICRON KAPPA UPSILON

Phi Chapter of Omicron Kappa Upsilon, honorary dental society, was chartered at the Baltimore College of Dental Surgery, Dental School, University of Maryland during the session of 1928-29. Membership in the society is awarded to a number not exceeding 12 percent of the graduating class. This honor is conferred upon students who through their professional course of study creditably fulfill all obligations as students, and whose conduct, earnestness, evidence of good character and high scholarship recommend them to election.

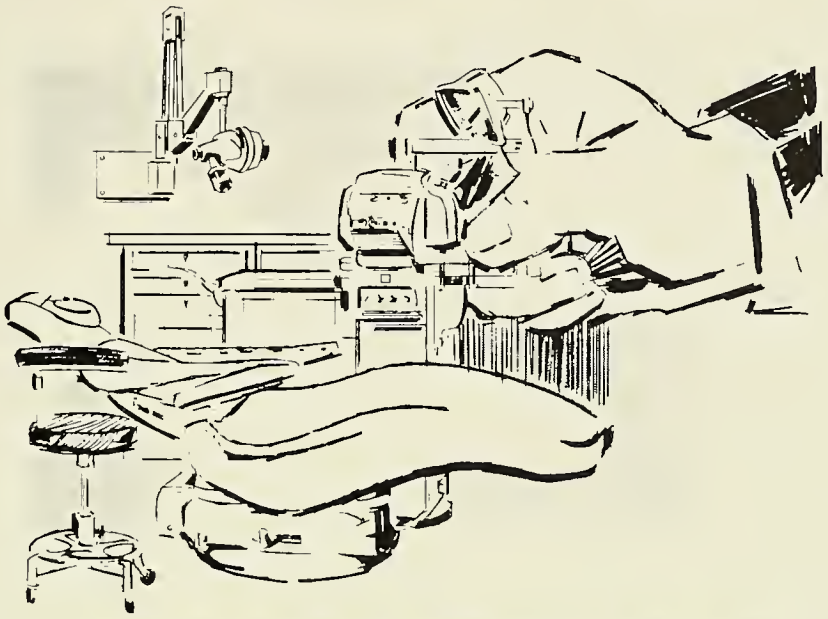
Plan your office before you graduate



Let our experienced specialists help you.

Choosing the right location means a lot to the success of your practice. So does the office design and the equipment you select.

Your Litton Dental Dealer will gladly help you solve these and many other problems that arise when you're getting ready to start your professional career. His long experience and knowledge of the community he serves enable him to suggest locations best suited to your needs. He offers office planning and design service, and two finance plans — either time purchase or long term leasing. He carries extensive stocks of proven and accepted dental supplies and equipment. He invites you to call him now — and talk about the office in your future.

Bioblend® Teeth make any denture look more natural.

Bone-like enamel. Wrap around translucency. Internally blended color. These are just a few of the esthetic refinements which distinguish Bioblend from all other artificial teeth. The result: Bioblend Teeth are now being used more often for complete dentures than any other teeth in the world. *Any other!*

Available in porcelain or plastic.

Mutual Life Insurance Company of New York Extends
Congratulations To The Graduating Seniors

"Very ingenious presentation, sir.
But I have a practice to get going first."

With M.O.N.Y. and Paul Patterson, you can do both!

I've found in dealing professionally with dentists almost exclusively, that until your practice really takes hold, it's often tough enough finding cash for the absolute necessities. Do you agree? If so, call your professional at MONY for details.

Paul G. Patterson, Jr.

Because you never stop learning, Jelenko never stops teaching

Closed circuit TV aids Jelenko's New Rochelle educational facility. Four other educational centers are at your service with clinics and lectures. 35 district representatives are available for technical consultation.

The Jelenko team attends hundreds of meetings with lectures and table clinics.

Our publications and films keep you and your dental society abreast of prosthetic developments.
